

Here Maths Becomes Friend.

A CENTER OF VEDIC MATHEMATICS

Parijat Academy™

OUR VISION

To explore Vedic Maths worldwide to enhance the maths in students.

OUR MISSION

To educate students about Vedic Maths worldwide and to make them confident and remove external dependency in maths.

Vijay Kulkarni

Vijay Kulkarni, Founder of Parijat Academy, Pune, is a Vedic Maths counselor and trainer as well as motivational speaker par excellence. He is involved in Vedic Maths coaching since 10 years. Teaching students in a magical environment and helping them to enhance the school maths as well as social mathematics is the motto of his teaching. Now students from Abroad like USA, Australia, Germany, Singapore are also taking online training from him. He was also awarded by T. B. Lulla Foundation as a "Karya Prerana Puraskar" in 2015 for his devotion in Vedic Maths. He is being invited by many schools and colleges to upgrade the math skill in students. Apart from Vedic maths, he is taking interest in classical & light singing and poetry.

OUR SERVICES

- School tie-ups for Vedic Maths.
- Weekend batches for students.
- Online courses for India & Abroad.
- Teacher's training program.
- Workshops of Vedic Maths.

Our Branches

- Karvenagar
- Rasta Peth
- Navi Peth
- Pimple Gurav

New Jersey, USA

About Us

Parijat Academy is a fastest growing institution of Vedic Mathematics in India and abroad founded by Mr. Vijay Kulkarni in the year 2010 to promote Vedic Mathematics and other maths skill development programs. We are continuously doing tie ups with school & colleges for short courses, seminar & work shop. We are also in developing maths of tribal students & teachers of state govt. Our institute is developing Vedic Maths in India as well as in abroad. We are engaged in teacher's training to explore Vedic Maths worldwide which is our pure Indian culture.

About Vedic Maths

Vedic Mathematics is the name given to the ancient system of Indian Mathematics which was rediscovered from the Vedas between 1911 and 1918 by Sri Bharati Krishna Tirthaji (1884-1960). According to his research, all of mathematics is based on sixteen Sutras or word-formulae. For example, 'Vertically and Crosswise' is one of these Sutras. These formulae describe the way the mind naturally works and are therefore a great help in directing the student to the appropriate method of solution.

Advantages of Vedic Maths

- > Vedic Mathematics can definitely solve mathematical numerical calculations in a faster way.
- > Some Vedic Math Scholars mentioned that Using Vedic Maths tricks you can do calculations 10-15 times faster than our usual methods.
- > It reduces burden & scratch work while solving the papers.
- > It helps to solve difficult calculation in single line.
- > It needs tables up to nine only.
- > It improve our concentration, logic, confidence which is required in competitive as well as school annual exams.
- > It is useful in competitive exams like scholarship, NTS, Engineering, Banking, CAT, MAT, JEE etc.

Why do students have fear of Maths ?

Another major contributor to the difficulty of mathematics is lack of innovation in the conventional system of teaching. The conventional system of teaching makes mathematics a dull and boring subject. Students are unable to visualize the concept taught by the teacher. Therefore, their interest level goes down. Hence they start developing a disassociation with the subject. If this disassociation continues for a longer period of time a child starts hating mathematics. This phenomenon of Math fear is growing every day and now the central board has also recognized this problem. Through their circular, they have asked the schools to create an environment where the child takes interest in Mathematics

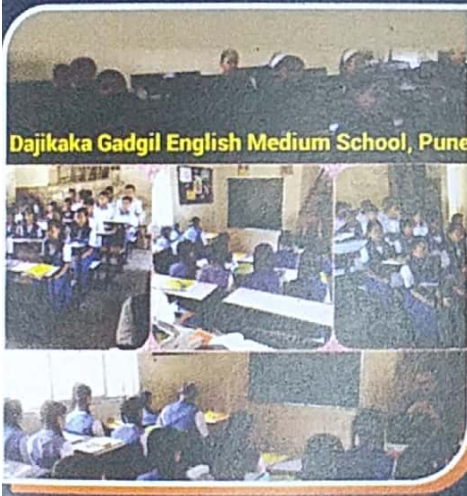

Why Maths?

- 1) Maths is used in practically every aspect of our lives, from counting, telling time, understanding measurements in cooking, at the store, in sports.
- 2) Scientists and engineers use it to create electricity, design homes, cars, planes etc.
- 3) Computers and cell phones are driven by binary code which is mathematical computations.
- 4) This world as we know it uses maths at its core.
- 5) Maths is needed to drive society forward.

Motivational award received for dedication in Vedic Maths by T.B. Lulla charitable by holy hands of Mr. Prabhakan, minister of State Govt.

Felicitation ceremony of DES school students in presence of dignitaries of Deccan Education Society Pune

Dajikaka Gadgil English Medium School, Pune

Certificate Course of Vedic Maths conducted in Dajikaka Gadgil English Medium School, Pune

Working on State Govt. project for skill development in Tribal Schools with the support of Tribal Research & Training Institute (Maharashtra)
